M109 SP

10

Artillery, Brutal

Artillery: When this Tank shoots, it may draw Line of Sight through other Tanks.

Brutal: After rolling Attack dice, upgrade one Hit to a Critical Hit.

By the 1980s the IDF had about 350 M109s in service, replacing the older Sherman based self-propelled howitzers used during the 1973 war.

Magach 6

14

Stabilizer

Stabilizer: When shooting, this Model may re-roll up to one Attack dice.

During the 1970s the Israel Defense Forces started to take deliveries of M60 Patton tanks from the US, and with the outbreak of the 1973 war the Israelis as received M60 tanks direct from US Army stocks as replacements.

Merkava 2

30

Advanced Stabilizer

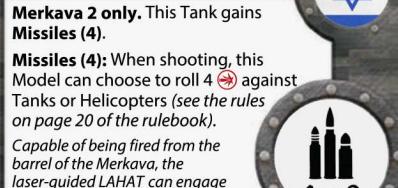

Advanced Stabilizer: When shooting, this Model may re-roll up to two Attack dice.

The Merkava Mk.2 saw action during a number of local wars, where it proved itself well. This tank is still in service, even though it is considered out-dated.
